Re: Complaint OC06-001

South Dakota One Call Notification Board:

The Runge Enterprises, Inc. work at the southwest corner of 85<sup>th</sup> Street and Louise Avenue on May 10, 2006 was a land leveling operation. During the fall of 2005 to the spring of 2006 other contractors were allowed to haul excess dirt from other projects to this site. Runge Enterprises, Inc. crew members were instructed to level the dirt piles created since the fall of 2005. No excavation or grading of the existing ground was supposed to occur during this operation. During the operation one crew member with a D6 Cat dozer cut approximately 0.5' to 1' from over top AT&T lines. The Runge Enterprises, Inc. crew member was stopped by an AT&T line locator before cutting any deeper. The 0.5' to 1' of dirt material over top AT&T line was replaced. Interviewing the equipment operator of the dozer, I was informed that he had no intention of cutting below the existing grade in this area and was just trying to level a few piles of dirt. Immediately, after being stopped by the AT& T line locator, Runge Enterprises, Inc. called in for utility locations for this area to comply with any other utility concerns (copy of ticket has been attached). If you should have any questions please give me a call.

Sincerely,

RUNGE ENTERPRISES, INC.

Robert Roth  
Vice President
