To Whom It May Concern:

First of all, I need to set the record straight that neither I nor did any employee of Larry's Electric Inc. have any involvement in this complaint. The trenching from this project was done by the general contractor, Sharpe Enterprises, Inc. Larry's Electric did not provide the trenching or cut any lines. There would have been no need for Larry's Electric to provide notification of proposed excavation as we were not proposing to do any trenching for this line in question. The only involvement we had at the Mackay State Library was a proposal approved by the general contractor, Sharpe Enterprises to do the electrical work. (see attachment)

Secondly, as you have chosen to accuse me and my company of something we had no involvement in I will be consulting legal advice to determine how to seek damages against you for false accusation. Your false statements to the media have caused me and my company embarrassment and have given me a bad name in this small community we live in. If you are willing to make a public statement clearing my name and the name of my company from this unnecessary complaint I will contemplate not pursuing this matter by hiring an attorney.

Thank you for your prompt attention to this matter.

Sincerely,

LAWRENCE R. HARRIS, JR., OWNER
