A safety meeting was held on 10-9-14. The meeting covered making sure that One Call was called before any digging. Careful exposing of lines and the vacuum excavator we have purchased to assist with exposing lines. It was reemphasized that it is of upmost importance that if a line is hit that one call is immediately called to inform the affected utility and repairs made by them. Attached is a list of those in attendance at the meeting.

Thanks  
Cal Muilenburg, Office Manager  
Schoenfelder Construction Inc.
