Hi Codi,

Per the Order(s), attached please find the attendees who were present at our in-house safety meeting to discuss SD One Call laws. During the meeting we discussed the importance of making sure the locates were up to date and that there were fresh locate marks on the ground. The MDU hits were discussed in length and we stressed the importance of using our vac trailer.

A meeting with MDU was also held to review the damage and to discuss safe practices while working around gas lines.

Hope all is going well for you. The damage prevention meeting was very informative.

Thank you,
Mandi
