**Subject:** Private utility conflicts 41st/129 Project

As many of you are aware, last week we experienced utility conflicts that caused damage to private utilities resulting in business interruptions and complete closure of 41<sup>st</sup> Street west of 129.

There is much confusion with what we were told prior to the bid letting and at the preconstruction meeting with regards to private utilities being relocated prior to construction. In an effort to get everyone on the same page, I believe it is necessary to have a mandatory meeting where we get everyone together to discuss utility conflicts. If you're not the correct person that knows where your existing lines are and know where the relocation should be, I need the correct person at this meeting!

I must have everyone's commitment to this meeting. We can meet at the fire station, 41<sup>st</sup> and Marion Rd.....

Tomorrow, Tuesday at 1:00 PM

Please confirm your attendance.

**Subject:** CenturyLink Line @ 41st & Gateway Running West

Bob,

I just talked to Dylan and the 50pr line running west from Gateway (circled in BLUE) is going to be abandoned. We need to maintain the lines running North and South along Gateway running across 41<sup>st</sup> street at this location. He is aware of the lines and at this time, we do not know depth without the potholes complete yet (waiting for staking.

USIC – Please stop marking the 50pr line from behind the Days Inn running to Gateway. Chris is actively removing this from the maps.
