Subject: Reecy Sewer Issue

Keith – good morning!

Please see my statement below regarding the markings on my driveway related to the sewer line from our home to the main sewer line in the street.

On February 4, 2022 our sewer line was blocked and so we called Roto Rotter in Sioux Falls, SD to come clear the blockage. At that time Roto Rotter sent a snake down the drain to see the problem. It was discovered the line had a break in it and the line snake indicated the break was under our driveway and so green spray paint marks were placed by Roto Rotter on the driveway to mark where the issue was located. After this date, The Lake Madison Sanitary District (LMSD) was contacted to let them know of the issue at which time Scott from LMSD came to our home and also ran a snake down the drain to determine the depth of the line so it could be determined how big of an area would need to be excavated to fix the problem. At this time additional green spray paint marks were made on our driveway. Prior to February 4, 2022 there were no markings on our driveway concrete in this area.

Please contact me with any questions. Thanks!

Mike.
